

Dissemination & Public outreach

The Federation members develop tools and resources for the scientific community. They are engaged in disseminating the results of research to a wider public.

- **Tools and resources**
are developed both internally and with external collaboration
Full-chain of mass digitalisation services | DMS - Document Management System | Archaeology-related multimedia | Online databases & geo data
Web portals | Digital libraries and publications | Multilingual thesauri

- **Public events**
Lectures | Exhibitions | Cultural activities in partnership with cultural bodies | Participation in national and European events

Key partners

Directorates General of Antiquities abroad | The French & Foreign archaeological Institutes abroad | International and French Universities | Université de Lyon and its member institutions | The Huma-Hum digital network | The Frantiq and MASA consortiums | Archaeological societies and regional archaeological services | Museums

Research hubs

Members promote transdisciplinary and multi-period collaboration around 5 key topics:

- Scientific data management
- From collecting to archiving
- Water and Societies
- From hydraulics to a sustainable environment
- Constructions in the city and the city under construction
- Knowledge and society
- Labs for Junior research members

Before submitting to national and international calls, research projects development is supported via an internal call for proposal.

Support services

- Administrative services
- Archaeological techniques
- Architecture | Cartography - GIS | Topography | Drawing
- Archives
- Information systems and networks
- Library
- Documentary resource centre focused on the research fields of the MOM | More than 80 000 volumes | 1 369 titles of periodicals | 1 587 old books from the 16th to the 20th century
- MOM Editions
- In-house collections and co-editions | More than 185 published books | Online publishing on *Persée* and on *OpenEdition*

Fields of expertise

- Archaeology | Archaeometry | Environmental Studies | Geography | History | Ancient linguistics and literatures

- Prehistory | Protohistory | Antiquity | Middle Ages

- Archaeological analyses | Archaeometric techniques | Databases | Digital humanities | Scientific publishing

Field activities

- About 70 directorships and co-directorships in archaeological and epigraphic fields, with programmes in more than 30 countries

Research units

Research federation MOM | FR 3747 | hosts 4 research units

Academic training

MOM is active in academic training. About 150 Ph.D. students are working within the MOM research units. Some members of the MOM are in charge of the following academic cursus:

- **Diplôme universitaire** d'Études Supérieures en Égyptologie | DUESE
- **Diplôme universitaire** en Assyriologie et Archéologie du Proche-Orient ancien | DU2A
- **Master** « Archéologie, sciences pour l'archéologie »
- **Master** « Mondes anciens »
- **Master** « Histoire de l'art »
- **Doctorat** « Mondes anciens »

Technological platforms

Competences | Technical skills

- Archaeology and 3D modelling | ArAr
- Cartography | Archéorient and FR
- Ceramology | ArAr
- Digitalisation and databases | FR
- OMEAA | Observation and quantification of past and present environments | Archéorient and EVS
- Radiocarbon dating | ArAr
- Semantic Web and Thesauri | FR
